

# Born on the track, raised for the street!

USERA Spec 9 Championship  
KW suspensions - official suspension supplier

USA-ALMS GT2 Race Team  
Flying Lizards Motorsports

*inex-line*  
STAINLESS STEEL TECHNOLOGY

The Variant 3 coilover permits a large range of customization to the suspension setup. Adjustable (and independent reacting) rebound and compression dampening allows a truly individual performance driving setup for those technically demanding drivers. Compression dampening adjustment is conducted in the low-speed range, while the high-speed set-up, so decisive for driving comfort has been pre set by KW engineers.

- ✓ Polished stainless steel shock bodies
- ✓ Simple height adjustment
- ✓ Independent adjustable damping technology
- ✓ rebound and compression damping
- ✓ Infinitely adjustable rebound damping
- ✓ Custom race applications available
- ✓ German engineered and safety tested
- ✓ 14 level adjustable compression damping
