Yokohama Drivers Cup USA  
KW suspensions - official suspension partner

American Le Mans Series  
GT2 Race Team Flying Lizards Motorsports

The Variant 3 coilover permits a large range of customization to the suspension setup. Adjustable (and independent reacting) rebound and compression dampening allows a truly individual performance driving setup for those technically demanding drivers. Compression dampening adjustment is conducted in the low-speed range, while the high-speed set-up, so decisive for driving comfort has been pre set by KW engineers.

- ✓ Rebound and compression damping
- ✓ 14 level adjustable compression damping
- ✓ Infinitely adjustable rebound damping
- ✓ Independent adjustable damping technology
- ✓ Simple height adjustment
- ✓ Polished stainless steel shock bodies
- ✓ German engineered and safety tested

*inox-line*  
STAINLESS STEEL TECHNOLOGY
