PRESS RELEASE

August, 2007

IMMEDIATE RELEASE

Belltech Transmission Cross-member for 2004+ Chevrolet Colorado / GMC Canyon

Belltech now offers their low profile Transmission Cross-member for all 2004+ Colorado's / Canyon's. A gain of 2.25" of clearance is achieved using the Belltech's Cross-member. Belltech's low profile design reduces the risk of bottoming out on extremely lowered trucks. Belltech cross-members are designed to exceed OEM load specifications and are direct replacement of the factory unit. All cross-members are heliarc welded and powder coated for a lasting finish.

Part # 6963 MSRP \$328.60
