PRESS RELEASE

March 2007

IMMEDIATE RELEASE

Belltech Nitro Drop 2 Shock Absorber

Belltech announces their "Nitro Drop 2" shock absorber for trucks and SUV's. Belltech's Nitro Drop 2 offers the customer an OEM replacement quality shock absorber with performance handling characteristics.

Each Belltech Nitro Drop 2 features a nitrogen charged twin tube construction which provides "cavitation free" technology, thus avoiding air from decreasing the shock absorbers effectiveness.

The Belltech Nitro Drop 2 shock absorber utilizes a 12.5mm hard chromed and polished inductive piston rod, 30mm piston and 45mm shock body. These qualities provide the control required by larger OE and aftermarket wheel/tire packages.

Please see Belltech catalog for specific applications.
