## **PRESS RELEASE**

March 2007

IMMEDIATE RELEASE

### **Belltech PRO Coils**

Belltech announces their "Pro Coils" for trucks and SUV's. Belltech's Pro Coils provides two lowering height options with one purchase.

Belltech Pro Coils are sold as a set with springs and spacers and can be combined with other Belltech components for additional lowering. The use of the spacer provides a one inch raise in ride height from the maximum specified lowering of the coil.

Each coil is manufactured from chromium alloy steel and is hot wound, shot peened then powder coated to exact specifications to assure the proper ride height and ride quality.

Please see Belltech catalog or website for specific applications. [www.belltechcorp.com](http://www.belltechcorp.com)
