PRESS RELEASE

October 2007

IMMEDIATE RELEASE

KW coilovers in 3 Variants for 2006+ Audi TT

KW suspensions announces their stainless steel constructed coil-overs for the 2006+ Audi TT Coupe and Roadster, 4cyl. and 6 cyl. models. All 3 Variants of the KW suspensions coilovers will be available.

The KW coilover suspensions for the 2006+ AudiTT 4cyl. enables the owner to lower their vehicle 20-50mm on both front and rear axles. 6cyl. models are able to lower their vehicle 10-35mm on the front axle and 5-30mm on the rear axle and retains enough travel to handle maximum load and dynamic loads during driving. Variant 1 with it's preset dampening rates permits customized lowering of the suspension. Variant 2 allows modifications in ride height and rebound dampening. Variant 3 permits adjustable (and independent reacting) rebound and compression damping with height adjustability.

All KW coilovers pass stringent German TUV safety & quality testing standards. Each kit is TUV approved.
