PRESS RELEASE

November 2011

IMMEDIATE RELEASE

KW coilover suspension in 2 Variants for 2010+ Chevrolet Camaro Convertible

KW Suspensions announces their stainless steel constructed coil-over for the 2010+ Chevrolet Camaro Convertible. Two Variants of the KW suspension line up will be available.

The KW Suspensions coilover for the Camaro Convertible enables the owner to lower their vehicle 0.9-1.8 on the front axle and 0.8-2.0 on the rear axle and retains enough travel to handle maximum load and dynamic loads during driving. Variant 1 with its preset dampening rates permits customized lowering of the suspension and creates an optimized balance of sportiness, comfort and safety. With the Variant 3 drivers are able to adapt the suspension to their driving style, by using the fully adjustable independent rebound and compression technology to achieve the maximum of performance, driving comfort and safety. All KW coilovers come with a lifetime warranty and pass stringent German TUV safety & quality testing standards. Each kit is TUV approved.

KW automotive North America, Inc. is the distribution base for KW automotive, GmbH, a manufacturer and distributor of KW Suspensions performance coilover systems. Also home to sport truck lowering component manufacture Belltech Sport Trucks and ST Suspensions.

Variant 1

Part#:10261017 MSRP:\$1,499.99

Variant 3

Part#:35261017 MSRP:\$2,399.99
