- Rear Leaf Springs
- Complete Lowering Kits
- Anti Sway Bars
- Handle Relocator

Belltech manufactures a complete line of suspension components designed to build a truck or SUV to suit your personality and life style. Vehicle drops are achieved through the use of matched components assembled into a complete system. Using Belltech suspension components you can build a custom sport truck to meet your specific objective.

LSD Kit

LSD-Doors offers the worlds only crash tested lambo style door system for the Chevrolet/GMC S10/S15. The bolt-on ready kit offers a Side Impact Safety Lock, M.A.R.A. (Multiple - Axis - Rotational - Assembly) and Magic Stick Technology. A patented Side Impact Safety Lock is integrated into each LSD-Door system. The M.A.R.A. C-shaped pivot arm connection provides a range of adjustment for proper gap clearance for smooth operation. The "Magic Stick" technology provides a second hinge point and supports the door when closed. Each LSD-Door kit is vehicle specific and offers factory like fit.

It's all about the details:

1. M.A.R.A. Technology
Multiple-Axis-Rotational-Assembly
2. "Magic Stick" technology
3. Patented safety locking for side impact
4. Vehicle-specific gas springs
5. Adjustable roller guide for the pivot arm

Inside the package is everything you need to do the installation

- Two completely per-assembled LSD hinges including high pressure gas dampers
- Complete LSD hardware kit, including wire harness extensions with insulated cable connectors
- Waterproof insulation tape, wire guide clips and wire ties
- Fully illustrated step by step installation manual

Manufacturer / Vehicle Type	Model	Year of construction	Footnotes	Part No.
CHEVROLET / GMC				
S10 / S15	2-doors truck only	94-04	a) d) j) k) l) p)	50061004

Footnotes:

- a) dismantling and slight modification of the fender might be necessary
- d) the wire harness extension is necessary
- j) vehicles with airbags in the doors—the functionality of the airbag needs to be tested after the cable is extended
- k) parts of the original hinges need to be cut off. To go back to the original hinges there will be additional parts necessary, which can be ordered at your local dealership
- l) internal fender modification required
- p) internal door modification required

Belltech Nitro Drop 2 Shock Absorbers

Belltech's newly designed "Nitro Drop 2" shock utilizes the latest twin tube technology and OE quality components for improved handling of your sport truck.

- Ideal for the performance orientated truck enthusiasts
- Performance handling with OE quality construction
- Complements larger wheel and tire packages

Belltech Street Performance Shock Absorbers

Belltech's newly designed "Street Performance" shock absorber utilizes high performance OE quality components to provide the avid truck enthusiast a great balance between ride performance and handling.

- Ideal replacement for premium trucks and SUV's
- Optimum balance of performance, handling and ride quality
- Complements larger wheel and tire packages

Belltech Drop Spindle

Belltech's Dropped Spindles offer a 2 inch drop, while improving handling and retaining factory ride quality. Our spindles maintain critical suspension geometry and eliminate the possibility of suspension misalignment. Each spindle is built from high strength ductile iron, providing the structural integrity to meet and exceed all factory specifications.

- Retains critical front end geometry during lowering
- Exceeds OEM quality and strength standards
- Manufactured with high quality materials

Belltech Drop Spindles

Year	Application	Drop	Part #
94-04	S10/S15 Std. & Ext. Cabs (4 & 6 Cyl.)	2"	2100

Belltech Leveling Spacers

Belltech's newly designed leveling spacers are engineered to adjust the ride height differences between the passenger's side and the driver's side on your S-Series. Measure the front end of your truck on a level plane and record any differences in measurements. You may want to adjust and level your vehicle during your suspension modification with the appropriate spacers.

Belltech Leveling Spacers

Year	Application	Leveling Range	Part #
94-04	S10/S15 Std. & Ext. Cabs (4 & 6 Cyl.)	3/4"	4930

Belltech Spring Distance Spacers

With the spring distance spacers Belltech offers an exclusive spacer system engineered with spring contours and are designed to lift your vehicle by 1". This could be used to lift your factory ride height as well to adjust an existing lowering.

Belltech Coils

Each coil spring is built from chromium alloy steel and is wound, shot peened then powder coated to exact specifications to assure the proper ride height, ride quality, and long life you have come to expect from Belltech products. Belltech's front coil spring sets are designed to easily replace the factory springs. These springs are a great solution for the enthusiast looking to lower their vehicle.

Belltech Front "PRO" Coils

Belltech "Pro"-Coil Spring and Spacer Kits are engineered by using OEM supplied CAD data. Belltech engineers are able to create components that fit the application to the exact dimensional tolerances for a perfect fit. Belltech introduces an advanced lowering kit which includes Belltech's high quality coil springs and vehicle specific upper mount strut spacers. Purchasing this kit provides you with the option of two different ride heights with just one kit!

Belltech Torsion Bar Keys

Belltech's unique and industry first "broached" torsion bar keys are a direct OEM replacement and allow you the simplicity of lowering your torsion bar equipped S-Series approximately 1 to 3 inches, without sacrificing the overall ride quality. All keys are made from high strength ductile iron and come with a powder coated finish for a lasting finish.

Belltech Lowering Block Kits

Belltech lowering block kits come complete with blocks, u-bolts, nyloc nuts and washers. Lowering blocks are manufactured of extruded aluminum. The extruded aluminum process yields higher strength ratings when compared to welded lowering blocks or other methods of manufacturing. Lowering blocks are designed to lower the rear of your vehicle in 1, 2 or 3 inch increments.

Lowering Block Kits

	S10/S15 with 2.5" & 3" wide leaf springs 2° taper	6002	6102	6202

Belltech C-Section Kits

Belltech C-sections are designed to increase overall suspension travel on vehicles utilizing lowering kits that create limited rear axle travel. All c-sections are manufactured with heavy duty stamped steel contoured to match the factory frame rails. All kits feature a durable powder coat finish and high quality hardware using grade 8 fasteners.

C-Section Kit with Hardware

Belltech Anti Sway Bars

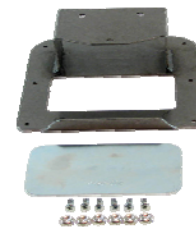

Performance and comfort characteristics are taken into consideration with each Belltech Anti-Sway Bar design. Incorporating 20 plus years of design experience, Belltech Anti-Sway Bars are designed to improve handling and steering response by minimizing body roll while not affecting ride quality. Belltech Anti-Sway Bars are manufactured from cold formed solid steel and use swedged ends for their superior strength and reliability. All Belltech anti-sway bars include high grade mounting hardware, polyurethane bushings and are powder coated for a lasting finish.
