

### Featuring:

---

- Coilover Kit Variant 1
- Coilover Kit Variant 3
- Clubsport Suspension

KW offers the highest quality suspension solutions for on and off track applications. KW is renowned for out industry exclusive INOX stainless steel construction, and relied on by the professionals for our patented valve technology. It's the number one choice for performance minded drivers.

- LSD Kit

LSD (Lambo Style Doors) is the world's only crash tested lambo style door system. LSD offers vehicle specific applications. Engineered as a bolt-on solution, our LSD-Door kits take all of the guess work out for you and come ready to install. LSD-Doors utilize patented technology and integrate safety features in each LSD-Door kit, thereby offering your

- Lowering Springs
- Shock Kit
- Sport Suspension Kit
- Coilover Kit
- Anti Sway Bars

ST offers a comprehensive range of suspension solutions to meet the growing needs of every enthusiast who demands style performance handling and safety. From the quality of materials to production methods, ST is a step above the rest. ST is the enthusiasts choice.

## KW COILOVER VARIANT 1

The ideal systems for customers wishing to rely on the experience of our engineers yet determine their own degree of lowering. In extensive driving tests our engineers have set the dampers for the best balance between sporty driving, comfort and safety.

- Optimally adjusted, sporty and comfortable dampening technology
- "Inox-line" stainless steel technology at no extra cost
- Individually height adjustability
- TUEV-tested lowering range
- High-quality components for long life
- Comprehensive documentation for ease of use infinitely

Variant 3 #35230045

## KW COILOVER VARIANT 3

The Variant 3 is state-of the art technology for the skilled and experienced driver. The separate and independent compression and rebound dampening options allow a truly individual driving set-up.

- Damping technology with individually adjustable rebound
- "Inox-line" stainless steel technology at no extra cost
- Individually height adjustability
- TUEV-tested adjustment parameters
- High-quality components for long life
- Comprehensive documentation for ease of use infinitely adjustable rebound damping
- 14 level adjustable compression damping
- Unique, independently functioning damping power adjustment

## KW CLUBSPORT SUSPENSION

KW has recognized the increase in level of participation and interest of Clubsport enthusiasts world-wide. Therefore, KW has decided to launch new product line – KW Clubsport. Based on Motorsport applications it targets the enthusiast looking for more aggressive setup for the race-track with some mild road use.

Enthusiasts have taken it upon them to build more track dedicated cars from their usually base of street going vehicles. Modifications consist of decreasing overall vehicle weight, increased horsepower and larger sized wheels and tires. Enthusiasts require a suspension setup capable of handling the increased forces that their vehicles demand. Clubsport has been released to fill that void as road setups are no longer ideal for this level of performance car. Coilover characteristics consist of increased spring rates, different valving, larger diameter piston rods and racing top mounts. With these features enthusiasts will have a better product for track day motorsport events.

- Performance setup for the racetrack
- Dampers in compression and rebound forces independently adjustable
- Use of high performance linear race springs
- Additional available with racing top mounts

Clupsport #35230845

Application	Year	Footnotes	Clubsport Kit incl. top mounts  Part no.

## LSD Kit

LSD-Doors offers the worlds only crash tested lambo style door system for the 2005+ Ford Mustang. The bolt-on ready kit offers a Side Impact Safety Lock, M.A.R.A. (Multiple - Axis - Rotational - Assembly) and Magic Stick Technology. A patented Side Impact Safety Lock is integrated into each LSD-Door system. The M.A.R.A. C-shaped pivot arm connection provides a range of adjustment for proper gap clearance for smooth operation. The "Magic Stick" technology provides a second hinge point and supports the door when closed. Each LSD-Door kit is vehicle specific and offers factory like fit.

## It's all about the details:

1. M.A.R.A. Technology  
Multiple-Axis-Rotational-Assembly
2. "Magic Stick" technology
3. Patented safety locking for side impact
4. Vehicle-specific gas springs
5. Adjustable roller guide for the pivot arm

Inside the package is everything you need to do the installation:

- two completely per-assembled LSD hinges including high pressure gas dampers
- Complete LSD hardware kit, including wire harness extensions with insulated cable connectors
- Waterproof insulation tape, wire guide clips and wire ties
- Fully illustrated step by step installation manual

Manufacturer / Vehicle Type	Model	Year of construction	Footnotes	Part No.
Ford Mustang	Coupé	2005+	a), b), d), j)	50030005

## FOOTNOTES:

- a) Dismantling and slight modification of the fender might be necessary
- b) Only for 2-door models
- d) The wire harness extension is necessary
- j) Vehicles with airbags in the doors - the functionality of the airbag needs to be tested after the cable is

## Sport Springs

ST springs are available for Ford Mustang 2004. Each one specifically engineered for optimal performance and comfort. Improve your ride with ST Suspension Sport Springs to lower the center of gravity, reduce body roll in corners, and limit weight transfer under acceleration.

ST Sport Springs are manufactured of high-tensile steel, rigorously tested and inspected, as well as powder-coated for durability.

### *Sporttech spring line*

Developed for daily driving, featuring moderate lowering for a sporty look and improved handling, without sacrificing ride quality.

Application	Part no.	Drop			
		front		rear	
		in	mm	in	mm
Mustang V6 & V8	65627	1.4"	35	1.4"	35

## Shock Kit

Using stock shocks with lowering springs can result in a harsh ride, bottoming out and premature wear of shocks. This can all be avoided by installing ST Port Shocks which are specially designed for use with lowering springs. They feature advanced valve tuning and reduced shock travel for optimal performance while still maintaining ride comfort.

		in	mm	in	mm
Mustang V6 & V8	90323	1.2-2.3	30-60	1.4-2.1	35-55

## Anti-Sway Bars

ST offers the best anti-sway bars on the market. By integrating an adjustable lower tie brace to tighten and strengthen the rear lower sub-frame with a rear anti-sway bar featuring adjustable end-links, these kits can be set up for street or race applications. With the added benefits of urethane bushings, anodized brackets, complete hardware, and easy to follow installation instructions, this innovative ST suspension solution is the ultimate handling upgrade for vehicle.
